## **Django Unchained: T4 Demo Report**

### **Part 1:**

The date and time at which you already completed this demo, and briefly describe any challenges that arose during the demo.

We demoed our project on **November 23 at 2 PM (EST)**. During the demo, we encountered a few minor issues with backend validation (for instance allowing duplicate items to be attached to a single store) as well as missing some store operations on the front end.

### **Part 2:**

A link to the GitHub repository where your entire codebase resides. Tag which file revisions were shown in the demo.

Please check the most recent release tag. It should include this report as well.

<https://github.com/MattKersey/DjangoUnchained/releases/>

### **Part 3:**

A link to the folder in your repository that includes all your prose submissions thus far for this course.
